

## **I USED TO KNOW HOW**

**Things I used to do  
I can't do no more  
I know better now  
Than I did before  
I used to know how  
I used to know how  
I used to know how to please  
And keep my baby satisfied**

**The floor needs sweeping  
And the boiler is down  
The floorboards are squeaking  
Every time I walk around  
I used to know how  
I used to know how  
I used to know how to fix it  
Like a certified handy man**

**My baby called me last night  
Told me everything's all right  
Early this morning  
I couldn't find her by my side  
I used to know how  
I used to know how  
I used to know how to please her  
Way back when I was her backdoor man**

**I'm gonna pack my things and go  
And join a rock and roll band  
Do things I did before  
Things got way out of hand  
I used to know how  
I used to know how  
I used to know how to please them  
Singing in a Rock & Roll Band**
